**INFORMATION DISCLOSURE STATEMENT**

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In accordance with 37 C.F.R. §§ 1.56 and 1.97 through 1.98, applicant wishes to make known to the Patent and Trademark Office the references set forth on the attached form PTO-1449. Copies of the cited foreign patent and non-patent literature references, as required under 37 C.F.R. § 1.98(a)(2), are enclosed. Copies of the cited U.S. patents and U.S. patent application publications will not be submitted herewith in accordance with the waiver by the Office of the requirement under 37 C.F.R. § 1.98(a)(2)(i) for U.S. national patent applications filed after June 30, 2003. Although the aforesaid references are made known to the Patent and Trademark Office in compliance with applicant's duty to disclose all information he is aware of which is believed relevant to the examination of the above-identified application, applicant believes that his invention is patentable.

Applicant also wishes to make known to the Patent and Trademark Office that an application, Serial No. 10/448,611, describing and claiming subject matter that is similar to the subject matter of this application, was filed on May 29, 2003, and published as U.S. Patent Publication No. US 2004-0176924 A1. This related application, as well as any prior art cited therein, may be material to the examination of this application.

Applicant also wishes to make known to the Patent and Trademark Office that an application, Serial No. 10/783,163, describing and claiming subject matter that is similar to the subject matter of this application, was filed on February 19, 2004, and published as U.S. Patent Publication No. US 2005-0184376-A1. This related application, as well as any prior art cited therein, may be material to the examination of this application.

Applicant also wishes to make known to the Patent and Trademark Office that an application, Serial No. 11/101,935, describing and claiming subject matter that is similar to the subject matter of this application, was filed on April 8, 2005, and published as U.S. Patent Publication No. US 2005-0255722-A1. This related application, as well as any prior art cited therein, may be material to the examination of this application.

Applicant also wishes to make known to the Patent and Trademark Office that an application, Serial No. 11/015,213, describing and claiming subject matter that is similar to the subject matter of this application, was filed on December 16, 2004, and published as U.S. Patent Publication No. US 2006-0131728-A1. This related application, as well as any prior art cited therein, may be material to the examination of this application.

Applicant also wishes to make known to the Patent and Trademark Office that an application, Serial No. 11/454,674, describing and claiming subject matter that is similar to the subject matter of this application, was filed on June 16, 2006, and published as U.S. Patent Publication No. US-2007-0007983-A1. This related application, as well as any prior art cited therein, may be material to the examination of this application.

Applicant also wishes to make known to the Patent and Trademark Office that an application, Serial No. 11/494,811, describing and claiming subject matter that is similar to the subject matter of this application, was filed on July 27, 2006, and published as U.S. Patent Publication No. US-2007-0023923-A1. This related application, as well as any prior art cited therein, may be material to the examination of this application.

Applicant also wishes to make known to the Patent and Trademark Office that an application, Serial No. 11/495,954, describing and claiming subject matter that is similar to the subject matter of this application, was filed on July 27, 2006, and published as U.S. Patent Publication No. US 2007-0025079-A1. This related application, as well as any prior art cited therein, may be material to the examination of this application.

Applicant also wishes to make known to the Patent and Trademark Office that an application, Serial No. 11/494,810, describing and claiming subject matter that is similar to the subject matter of this application, was filed on July 27, 2006, and published as U.S. Patent Publication No. US 2007-0023904-A1. This related application, as well as any prior art cited therein, may be material to the examination of this application.

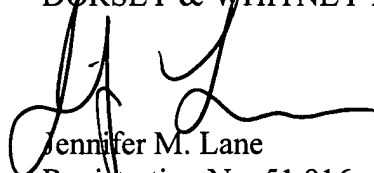

Applicant also wishes to make known to the Patent and Trademark Office that an application, Serial No. 11/494,810, describing and claiming subject matter that is similar to the subject matter of this application, was filed on July 27, 2006, and published as U.S. Patent Publication No. US 2007-0023889-A1. This related application, as well as any prior art cited therein, may be material to the examination of this application.

Nothing herein constitutes an admission that the references cited are prior art against the invention claimed in the above-identified application.

Please acknowledge receipt of this Information Disclosure Statement and kindly make the cited references of record in the above-identified application.

Respectfully submitted,
